

## MRS. RUIZ MONOLOGUE

*In this monologue, Luna shares with a friend a cute story she experienced with her two year old daughter Tara. **Sweet, loving, gentle.***

It's the most beautiful thing...watching my two year old daughter playing Mommy with her doll.

I was watching Tara the other day, playing alone in her bedroom. I was fascinated by watching her little mind work. At first I noticed how involved she was in her activity and it made me pay attention to her and then as I continued to spy on her I realized that she was acting like the mommy to her doll. She was making the doll drink from a cup. She kept saying, "drink, drink, drink." (laugh) And then she'd say, "gooooood giiiiirrrrrlllll."

She got that from me. (laugh) I was amazed. I couldn't believe how motherly this two year old was behaving. It really made me think about life and all its mystery.

I couldn't contain myself anymore from her cuteness and scooped her up in my arms and attacked her with a thousand kisses. I couldn't resist. She is my angel.
